

OziBattler belts out songs that kiss like the Foo Fighters and bite hard like Social Distortion. Poking fun at the absurdity of life that's reminiscent of The Ramones youthful rebellion, yet with all the seriousness and tenacity of Lucero in his voice.

New Release From OziBattler

Grungy Punk Transplanted into the Post Pandemic Prairie Land of Minneapolis

The much-anticipated third EP is being released on October, Friday 13th. For fans of the Offspring, Lucero, The Ramones, and the Foo Fighters, this installment swings the hard riffing guitar toward more toward the political landscape of life for inspiration. From tales of crazy love in **My Love For You**, to the protest songs of **Your Way** and **Circle 'round**, these five songs power through a wide swath of life's experiences.

Who is OziBattler?

The original OziBattler worked in the studios of Sydney, Australia, during the era of flannel and grunge, when recording was done on tape and music was sold on CD's. Then Napster happened and life as a musician meant starving and living on the street... So, he cut his hair and got a real job!

Two decades later, on the frozen tundra of Minneapolis, the world was put on pause and OziBattler discovered home recording had come a long way from the 4-track tape machines.

Now joined by "the Happy Gnome" on guitar, and "the Beat Monkey" on drums, OziBattler is now a band and are releasing their third EP, "**Subjects For Polite Conversation**", which follow "**Hear Me**" and "**Jan 2022**" that were both released last year. Live shows are planned for the spring.
